Weds Aug 23

this was a long day –
airport with cases at 9am
changed in Detroit
arrived in Ottawa mid afternoon
Southway Inn – excellent dinner

THUR Aug 24
Left Ottawa at 9am
IQALUIT - pop. 4000 - noon
Capitol of Nunavut
Refueling stop - and refooding
First Air belongs to the Inuit -
NANISIVIT - 2pm
Enough buses to take half the
group - So BC + I were with the
group which waited around 1½ hrs -
During this time I discovered
the Minolta shutter was not working
Despondent + cold and finding
no place to sit, I did not enjoy -
Bus finally took us to Arctic Bay
through the most fantastic countryside -
Entertainment of sorts - drumming, singing
etc - and an unsatisfactory box lunch -
walked around outside - very cold
Finally taken back through same
glorious countryside to Lyuba Orlova
wonderful. ADK

4-6?

Sunset - 9^{30}

Had 2 Jack Daniels
at $2 a piece

Friday Aug 25

Awoke at 3am - LIGHT!
Had a decent sleep
Lifeboat drill at 9^{30}
Zodiac Talk
After lunch - first Zodiac Trip - sure
Took ~~a~~ awhile to get geared up!
Prince Leopold Island - a bird island
300 meters high - Silurian mudstone ledges
covered with nesting thick billed murres &
kittiwakes - thousands of birds wheeling
in the sky. baby murres in the water
Fabulous experience except for
pictures - David's camera was too hard to
work. Wind came up - Took us nearly
an hour to get back to ships all the
time being drenched by wind & spray
5pm Talk - Carl "the geography of the
Arctic" Very interesting.
9pm Talk - John - slides - birds research
at Leopold Is + other places
wonderful

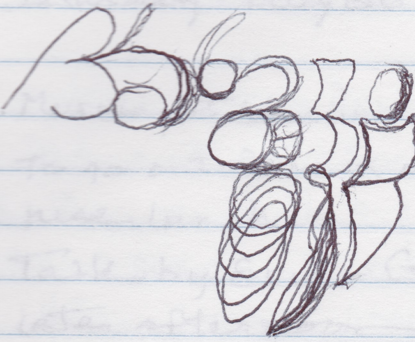
Saturday Aug 26



M[illegible] I did not want

to go [illegible]

nice day

Took [illegible] Geology

later afternoon — went via Zodiac

to Maxwell Bay - I dressed better

this time. TUNDRA - lots of

pieces of ordovician rocks all

about same size - lovely contours

of hills & beach slopes, many very

small plants, much scat - unlike

any place I have ever been

seen, barren - beautiful beyond

~~[illegible]~~ belief

[illegible]

Saturday Aug 26

Morning at leisure as I did not want to go out twice in one day – nice lunch

Talk by Eric – Geology

Late afternoon – I went via Zodiac to Maxwell Bay – I dressed better this time. TUNDRA – lots of pieces of ordovician rocks – all about same size – lovely contour of hills + beach slopes, many very small plants, much scat – unlike any place I have ever been. Sere, basic + beautiful beyond ~~[illegible]~~ belief

~~[illegible]~~ sun set 9:45

Sunday Aug 27

Croker Bay - Devon Is

Roll #1
1 - 13

Did not go ashore - spent the time on deck & bridge trying to absorb the serenity & beauty of the place

After noon went ashore, boots and all, beautiful shingle beach. pieces of shield in rectangular shapes all about same size (3x5") Climb up was steeper & longer than I thought of course and soon I was at the end of the line. And soon the line disappeared over the hill. So I decided to concentrate on the Tundra at hand. Had a wonderful time.

Monday Aug 28

Pond Inlet - Mittimatalik

Long awaited goal! Of course, I couldn't relate it to "Spring on an Arctic Island" The town sits on a hill, a dark hill covered with small brightly colored houses. from the approaching zodiacs it appears barren & spiritless. We walked up the muddy road, steep hill - first passing a smelly freshet along which the dogs were tied, muddy & ~~waiting~~ listless. Up & up we go to the community center - new building - well appointed - library, exhibits etc - we were treated to a program - high school students - touchingly earnest singing, throat singing, drumming, athletics impressive. Were any of these kids descendants of Idlouk??

Dell $98

Tuesday Aug 29

At Sea

Lecture #1 - History of NW Passage
Carl - interesting

Lecture #2 - Glaciers - Eric   Very good

Lunch

Lecture #3 - ice bergs - Carl -

nap

Tea & fashion show

Lecture #4 - birds - John

Enjoyed the lectures, but felt listless and tired at the end of the day. My arm still hurts

Wednesday Aug 30

At Sea - 500 miles across Davis Strait

Lecture #1 where does the water go? Carl - winds + currents

hot chocolate break + good chat/John

Lecture #2 climate changes Eric

while waiting for lunch I fell against a chair + received a sharp blow on the lower back, right side -

Lecture #3 - John - families of Birds

went below for a rest - and never came back up until next morning at breakfast -

day deteriorated with gale force winds ———

First transits of NW

ISBN 0-226 66814-2

thursday Aug 31

Terrible night but awoke to a calm morning - surrounded by towering grey mountains arising out of a dark grey sea - Went to Doctor (7th deck) nice man and received 3 pills + 2 pills - one a pain reliever + the other a relaxer (I think) Spent the rest of the morning in the sky deck + then the bridge

Not able to get into Umanak

Friday Sep 1

Had a good sleep, but could hardly move after I got up - went to Dr again for more pills - Did not go to Ilulist but spent most of the morning on the Bridge
Had a Grummy box lunch with others who who did not go ashore - Took a nap - and then back on the bridge to watch our departure from Jacobshavn - beautiful - right through the ice from Ice Fjord

Finished
Roll #1 Slides
Started (1-8)
Roll #2 print
